1. The Soviet technical officer at the shipyard in Wismar is Colonel Ambrosinov, who was formerly technical officer at the Oderwerft in Stettin.
2. The Oderwerft has been transferred from Stettin to Wismar, the last transport arriving in Wismar on 15 July 1947.
3. The following three vessels are lying in the yards at Wismar:

"Viteas" : The ex-German M.S. "Maas".

"Nordland": Is being transformed into a Merchant Navy training ship.

• "Aequator": Arrived on 3 July 1947 from Murmansk for repairs.

the Vulkanwerft had been transferred to Wismar, but this is the first indication of the Oderwerft undergoing the same fate.

Comment: Paragraph 2 may refer to the Stettiner Oderwerke A.G.  
Schiff- und Maschinenbau, Stettin-Grabow.
